

Carpentry and Joinery Pre-Vocational

INTRODUCTION

This introductory course is available one evening a week.

The 7 week course has been designed for those people who wish to gain a basic understanding at an entry level which is related to the carpentry and joinery industry.

WHAT WILL I DO

A range of introductory tasks and skills have been included in this programme of study to give you as broader insight into the carpentry and joinery industry as possible:

- Health and Safety
- Tools and Equipment
- Measurements, marking out and cutting of associated materials
- Safe use of tools and equipment
- Cutting and fixing a range of joints
- Production of a timber frame using different methods

HOW LONG WILL IT TAKE

One evening per week for 7 weeks.

ENTRY QUALIFICATIONS

You should have an interest in developing your skills and knowledge in the carpentry and joinery industry, there are no formal entry requirements to this course.

WHERE COULD IT LEAD

This introductory course is to form an entry point for successful learners into the Carpentry and Joinery (Craft Training) Level 2.

Your performance on the Introductory course in Carpentry and Joinery will be assessed and monitored. This information will be used when making a judgement on your ability to progress to further courses.

ADDITIONAL COSTS

For workshop activities you will need to purchase your own safety footwear and protective clothing that meet the course requirements. For classroom activities you will need to provide stationary and writing materials.

ADDITIONAL INFORMATION

Where courses last more than one year, only the first year's fees are shown

HOW TO APPLY

You can apply for this course by applying [online](#), by filling out an application form from the College prospectus or by contacting the Information Officer on 01205 313218 for further information.

The Information on this Course Information Sheet is correct at time of print, but can be subject to change at anytime.
